Part of President Biden's Sept. 9 announcement directed OSHA to develop a rule that will require all employers with 100 or more employees to ensure their workforce is fully vaccinated or require any workers who remain unvaccinated to produce a negative test result on at least a weekly basis before coming to work

Also, OSHA is developing a rule that will require employers with more than 100 employees to provide paid time off for the time it takes for workers to get vaccinated or to recover if they are under the weather post-vaccination

Both requirements will be implemented through an Emergency Temporary Standard.
