program if the returning worker exemption is not in place between December and March. In FY 2015, the first-half cap was met on January 26, 2015 and in FY 2016, the first half cap was met on March 15, 2016. In FY 2016 the cap would likely have been met earlier, with more employers shut out of the program, if Congress had not included the returning worker exemption in the omnibus appropriations bill.

The H-2B program relies on returning workers who come to the U.S. for seasonal employment and then go home. These workers are not immigrants. They provide an opportunity for U.S. businesses to operate at a greater capacity, retain their full-time workers and contribute to their local economies. Seasonal workers help support many upstream and downstream jobs. Every H-2B worker is estimated to create and sustain 4.64 American jobs.

Relief for seasonal businesses that use the H-2B program is needed urgently and cannot wait until March 31. Please ensure that the Returning Worker provision is included in the continuing resolution that is slated to run from December 9, 2016 to March 31, 2017.

Sincerely,
