Task #3

1. TBD

Notes:

Safety first: Always wear your PPE.
Set all rough-ins to the provided rough-in sheets.
You have six hours to complete these tasks.

General plumbing notes:

Install all fixture rough-ins according to submittal/specifications diagrams.
Locate backing board locations on the wall section where required.
Handicap accessibility is **not** applicable.
Cast iron no-hub waste will be assembled per manufacture requirements.
Copper tubing lines to be soldered/brazed watertight and will be tested. (Don't forget to cap.)
All plumbing work will have a neat appearance.
Work area to be kept safe and clean.

Materials Provided
